

TFS4 - Multi-Station Digital Timer

The TFS4 Multi-Station Digital Timer has four, 99 hour 59 minute timer stations that can be used simultaneously. Its large LCD screen and bright color coded flashing lights allow for easy viewing while its adjustable volume control and four distinctive audio alarms makes it easy to hear from across a large room.

Non-skid rubber feet, or wall mounting, keep the timer secured and its corresponding colored button keypad is splash-proof. A one-touch Start / Stop button is located on top of the unit for quick and easy operation.
